

MGD RF 1: Literacy Results Framework

Foundational Results:

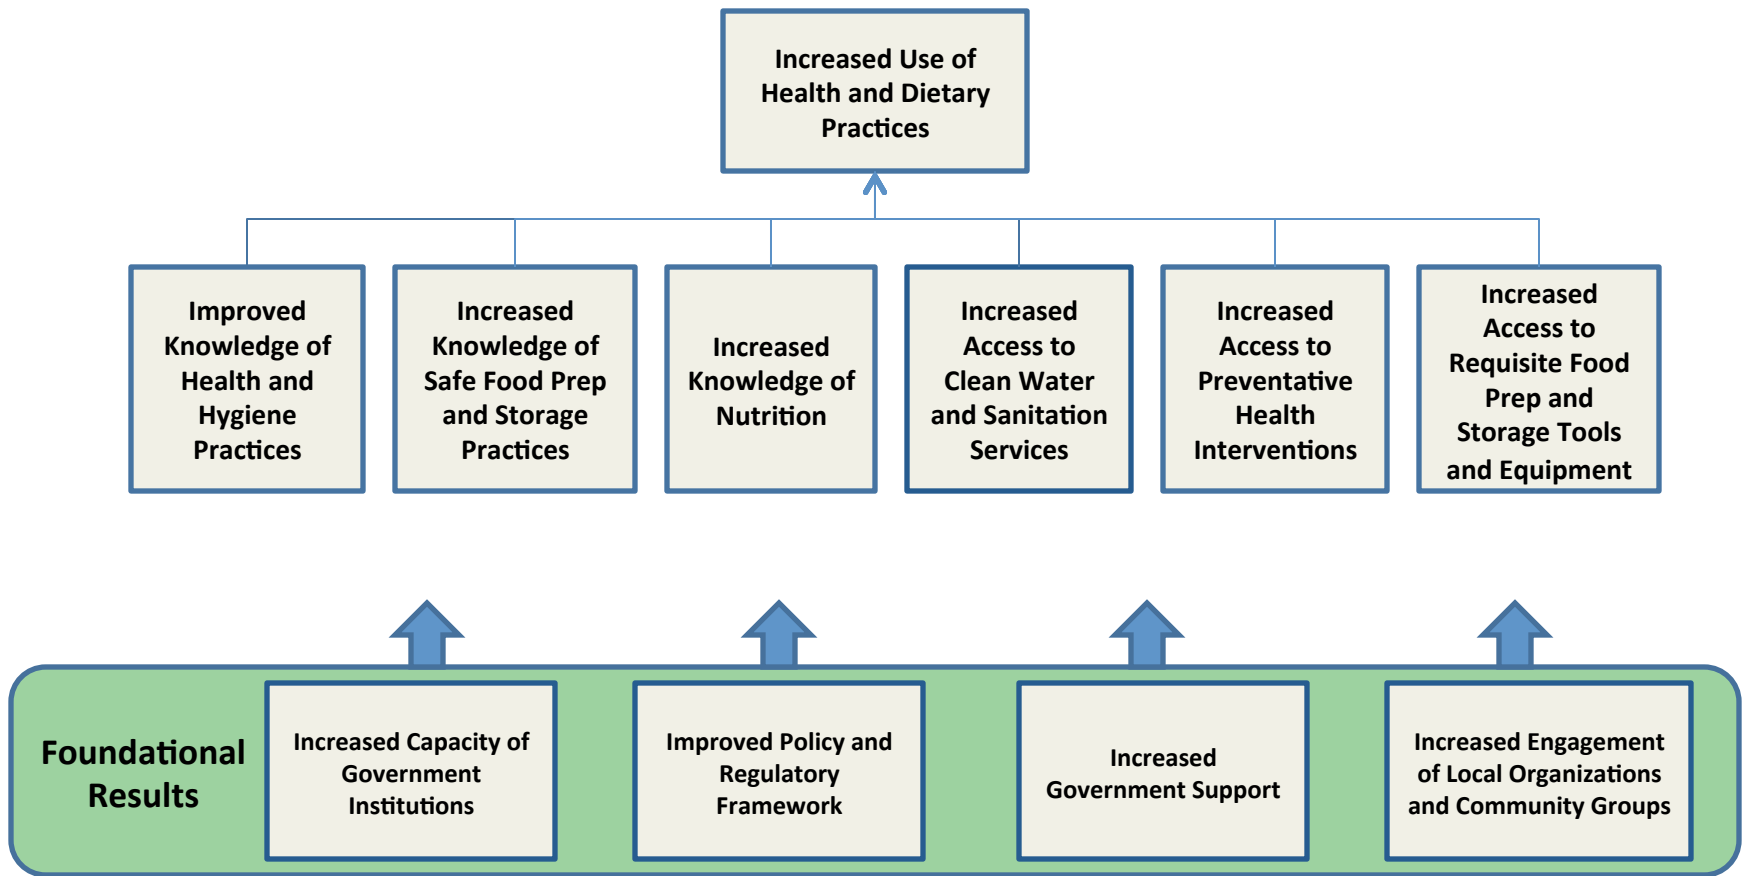

- Feed into one or more higher-level results
- Target critical actors or areas that increase the potential for lasting impacts
- Causal relationships exist between some foundational results

MGD RF 1: Literacy Results Framework

Illustrative Critical Assumptions

- Students can safely travel to school
- An adequate number of teachers are available
- Beneficiaries consume rations (e.g., do not share or sell rations)
- No major climate or natural disasters occur
- There is a positive level of government commitment (i.e., political will, climate, and security)
- No cultural barriers or other constraints to willingness to consume food provided

MGD RF 2: Health and Dietary Practices Results Framework

Foundational Results:

- Feed into one or more higher-level results
- Target critical actors or areas that increase the potential for lasting impacts
- Causal relationships exist between some foundational results

MGD RF 2: Health and Dietary Practices Results Framework Illustrative Critical Assumptions

- Infrastructure for clean water and sanitation exists in communities of target beneficiaries
- Cultural and religious beliefs will not prevent beneficiaries from adopting good health and dietary practices
- No major climate or natural disasters occur
- There is a positive level of government commitment (i.e., political will, climate, and security)
